

DOMINIK GRUDNIK

FrontEnd developer

ABOUT

My name is Dominik. I am a young ambitious Front-end web developer. My main operating system is Windows, but Linux and macOS are no strangers to me.

I am looking for a first job/internship to increase my already acquired skills needed on the front-end. I am open to offers for similar positions.

I graduated from a technical college with an IT profile and I am starting extramural studies at Politechnika Krakowska in IT.
